Note: Only lab confirmed cases are reported in this table. Counts can change from previous weeks due to the state reassigning a case to a different town once further information is gathered on the case, or due to lab reporting delays.

++ Scotland case count likely lower than actual positive cases due to residents using Baltic, North Windham and Hampton as a mailing address.

\*Mansfield case count (weekly and cumulative) includes UConn students

\*Note: this age group includes the UConn population but does not include their vaccine status due to vaccine records being linked to a 'home town' and not the Town of Mansfield.
