

## 40-Scale Ruler

How to use this ruler:

- \* Print out at 100% scale or "actual size" (do not use "fit to page") on 8-1/2" x 11" paper
- \* The red line is 1-inch long. Use to verify the ruler printed correctly.
- \* Every line is equal to one foot. The "2" equals 20-feet, "4" = 40-feet, and so on.
