### Recent EHHD News:

- The EHHD is meeting weekly with DPH and Region 4 partners on the topic of COVID-19 vaccination preparedness. The DPH has instructed local health departments to be prepared to vaccinate certain priority groups once a vaccine becomes available. Towards this end, the EHHD recently sent out a survey to member town governments, and public schools requesting total staffing counts.
- We continue to see a downward trend in the below chart driven by a reduction in the prevalence of cases among the UConn student population.

NOTE: Counts can change from week to week due to the state reassigning a case to a different town once further information is gathered on the case.
