

Have You Tested Your Home for Radon?

If not, it's time you did.

Protect Your Family from Radon

Radon is a gas that you can't **see**, **smell**, or **taste** — but it can be dangerous. It's the second leading cause of lung cancer in the U.S.

Radon is in the ground naturally. But sometimes it gets into homes **through cracks in the floors or walls.**

Learn more by calling the National Radon Hotline:

1-800-SOS-RADON (1-800-767-7236)
